Experience Better Living

Stoves

Bring the warmth and charm of a traditional stove into your home with the Mapleton 80 electric stove. Its timeless cast iron and steel design is complemented by advanced Optimyst flame technology, creating realistic flames and smoke that fill the room with atmosphere. The 3-sided glass panels provide expansive views of the lifelike log bed and flickering flames, enhanced by gentle crackling sounds for a truly immersive experience. Freestanding and versatile, the stove is ideal for inglenooks or flexible placement in any room, while an optional flue collar lets you add a decorative pipe for a classic finishing touch.

Adjust the fire easily with remote or manual controls via the opening door, and enjoy up to 2kW of cosy heat. With its combination of style, warmth, and ambience, the Mapleton adds a welcoming and captivating feature to your room.

- **Patented Optimyst technology** - creates ultra-realistic flames using water vapour and light, for a truly lifelike fire experience.
- **3-Sided viewing** - enjoy a unique panoramic view of the flames and lifelike log bed logs through three sides of glass, creating an immersive fire experience from every angle.
- **Easy refill** - the discreet water tank is accessed by the opening door and provides 8-10 hours of continuous flame and smoke effect before refilling is required.
- **Flexible Installation** - the Mapleton 80 can be positioned anywhere in your home, from a cosy inglenook to an open space, giving you maximum flexibility without compromising style.
- **Mapleton 100 model** - available as a larger stove with a log store, offering the same stunning flame effect for those who want a classic feature in their room.
- **Optional flue collar** - available separately, the flue collar allows you to fit a decorative flue pipe for added authenticity and a classic stove look.

Optimyst flame technology.
This unique flame effect is generated by an innovative combination of water vapour and light
